

# Public Opinion Survey Residents of Ukraine

---

September 7-21, 2015

# Detailed Methodology

- The survey was conducted by [Rating Group Ukraine](#) on behalf of the [International Republican Institute](#).
- Data was collected throughout Ukraine (except the occupied territories of Crimea, Donetsk and Luhansk *oblasts*) between September 7-21, 2015, through face-to-face interviews at respondents' homes.
- The sample consisted of 1,200 permanent residents of Ukraine aged 18 and older and eligible to vote. It is representative for the general population by age, education, region and size of the settlement. In addition, 633 respondents were also surveyed from the Zakarpattia region. Please refer to the next slide for information on how the Zakarpattia polling was conducted.
- Multistage probability sampling method was used with random route and next birthday selection procedures.
  - Stage one: 25 official administrative regions of Ukraine were defined (24 regions of Ukraine and Kyiv). All regions of Ukraine were surveyed except the occupied territories of Crimea, Donetsk and Luhansk.
  - Stage two: selection of the settlements - towns and villages. Towns were grouped into subtypes according to the size
    - City more than one million residents
    - City 500,000-999,000 residents
    - City 100,000-499,000 residents
    - City 50,000-99,000 residents
    - City to 50,000 residents
    - Village
  - Settlements were selected at random. The number of selected settlements in each region was proportional to the share of population living in a particular type of the settlement in each region.
  - Stage three: primary sampling units were described.
- The margin of error does not exceed plus or minus 2.8 percent.
- Response rate was 63.9 percent.
- Charts and graphs may not add up to 100 percent due to rounding.
- The survey was funded by the [U.S. Agency for International Development](#).
