Background

The International Republican Institute (IRI) is a nonprofit, nonpartisan, organization dedicated to advancing freedom and democracy worldwide. Since 1983, IRI has worked to develop democratic institutions and ideals, carrying out a variety of international programs to promote freedom, self-government and the rule of law worldwide. IRI provides technical assistance in the areas of political party strengthening, developing civic institutions and open elections, promoting democratic governance and advancing the rule of law.

IRI is working in the municipalities of San Miguelito and Panama City to develop “youth engagement incubators” within the mayors’ offices of these two cities. These incubators will bring together at risk youth, local government officials, and civil society to design and implement citizen security pilot projects. Before entering the incubator, youth will be trained in project design, leadership, and other key skills. IRI is looking for an organization with connections to at-risk youth in these two municipalities to recruit 50 youth to participate in IRI training. The organization will also coordinate the youth and mentor them throughout the training and project design process of the Incubator.

Period of Performance

January 18, 2017 through May 31, 2017.

Statement of Work

- Based on criteria provided by IRI, the contractor will identify and recruit 50 at-risk youth from the municipalities of Panama City and San Miguelito to participate in IRI’s youth training and “Youth Engagement Incubator” project (target of 25 per municipality). The participation of these youth in IRI’s incubator program will be subject to IRI’s discretion. At-risk youth are defined as youth ages 14-24 with economic and social environmental risk factors which put them at heightened risk of becoming involved in gangs or other criminal activity. The contractor will suggest final selection criteria to IRI.
- The contractor will coordinate with youth and motivate them to ensure their participation in training sessions to the fullest extent possible and prevent drop-outs

or missed sessions. This includes working with youth who are at risk of missing sessions (due to, for example, transportation problems), following up with youth who miss sessions, and alerting IRI and its training partner to issues that will impact training participation. Contractor will keep a log of youth behavior and participation based on criteria provided by IRI (IRI will hold a total of 18 sessions, with youth required to attend at least 6 to complete training, over a 3-month period)

- The contractor will mentor the youth teams from San Miguelito and Panama City as they carry out the project design portion of the Youth Development Incubator over a one-month period. The contractor will provide formal and ad hoc support, the approach to which should be described in the proposal and will be approved by IRI.

Eligible organizations will meet the following criteria:

- Organization connected to at-risk youth populations in Panama
- Has experience mentoring or coordinating youth
- Has presence in Panama City and San Miguelito

Evaluation and Award Process

1. IRI may contact any Bidder for clarification or additional information, but Bidders are advised that IRI intends to evaluate the offers based on the written proposals, without discussions, and reserves the right to make decisions based solely on the information provided with the initial proposals. IRI may but is not obligated to conduct additional negotiations with the most highly rated Bidders prior to award of a contract, and may at its sole discretion elect to issue contracts to one or more Bidders.
2. Mathematical errors will be corrected in the following manner: If a discrepancy exists between the total price proposed and the total price resulting from multiplying the unit price by the corresponding amounts, then the unit price will prevail and the total price will be corrected. If there is a discrepancy between the numbers written out in words and the amounts in numbers, then the amount expressed in words will prevail. If the Bidder does not accept the correction, the offer will be rejected.
3. IRI may determine that a proposal is unacceptable if the prices proposed are materially unbalanced between line items or sub-line items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly overstated or understated as indicated by the application of cost or price analysis techniques. A proposal may be rejected if IRI determines that the lack of balance poses an unacceptable risk.
4. IRI will conduct a source selection based as follows:

IRI intends to make an award to the responsible Bidder based on the following evaluation factors:

- a) Technical evaluation, (including technical capabilities, proposed technical approach, and personnel qualifications) – 60 percent
- b) Past performance and experience in performing similar projects – 30 percent
- c) Price – 10 percent

IRI intends to evaluate Bidders' proposals in accordance with these factors and make an award to the responsible Bidder whose proposal is most advantageous to the program.

5. If a cost realism analysis is performed, cost realism may be considered in evaluating performance or price.
