### Background:

The International Republican Institute (IRI) is a nonprofit, nonpartisan, organization dedicated to advancing freedom and democracy worldwide. Since 1983, IRI has worked to develop democratic institutions and ideals, carrying out a variety of international programs to promote freedom, self-government and the rule of law worldwide. IRI provides technical assistance in the areas of political party strengthening, developing civic institutions and open elections, promoting democratic governance and advancing the rule of law.

IRI currently works with municipal councils to bridge the divide between communities and municipal elected officials, while mitigating the effects of the population's distrust of Libya's fragile central government. To support this, IRI has assisted the Libyan Ministry of Local Government (MLG) to develop its own capacity to support nascent municipal councils. However, given the political division at the national level, which has begun to affect the MLG's operation, IRI has focused its efforts on directly supporting the municipal councils through training and consultation. Additionally, IRI supports the political engagement of Libyan youth in democratic governance by providing them the necessary skills and opportunities to effectively communicate with local leaders to achieve common goals.

### **Evaluation and Award Process**

1. IRI may contact any Bidder for clarification or additional information, but Bidders are advised that IRI intends to evaluate the offers based on the written proposals, without discussions, and reserves the right to make decisions based solely on the information provided with the initial proposals. IRI may but is not obligated to conduct additional negotiations with the most highly rated Bidders prior to award of a contract, and may at its sole discretion elect to issue contracts to one or more Bidders.
2. Mathematical errors will be corrected in the following manner: If a discrepancy exists between the total price proposed and the total price resulting from multiplying the unit price by the corresponding amounts, then the unit price will prevail and the total price will be corrected. If there is a discrepancy between the numbers written out in words and the amounts in numbers, then the amount expressed in words will prevail. If the Bidder does not accept the correction, the offer will be rejected.
3. IRI may determine that a proposal is unacceptable if the prices proposed are materially unbalanced between line items or sub-line items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly overstated or understated as indicated by the application of cost or price analysis techniques. A proposal may be rejected if IRI determines that the lack of balance poses an unacceptable risk.
4. IRI will conduct a source selection based as follows:

IRI intends to make an award to the responsible Offeror based on the following evaluation factors:

Relevant experience in graphic design and printing services, as evidenced by the submitted resume/organizational readout	40
Ability to provide graphic design, media support and printing services as evidenced by separately attached sample of letterhead, graphic design, printing and/or media content	35
Price	25
<b>Total</b>	<b>100</b>

IRI intends to evaluate Offerors' proposals in accordance with these factors and make an award to the responsible Offeror whose proposal is most advantageous to the program.

5. If a cost realism analysis is performed, cost realism may be considered in evaluating performance or price.
