**Statement of Work**
Scope of Work – Omnibus Questions:
Applicant firm will incorporate no more than 10 closed-ended questions into an existing public opinion survey for Kenya, to obtain citizen perspectives and priorities vis-à-vis local service delivery/development so that local government officials can enact policies around identified issues. IRI will only accepts Omnibus surveys with a minimum n = 500 in each of the 6 counties listed below. IRI strongly prefers face-to-face interviews, but will consider other modes. IRI strongly prefers that the omnibus survey sample design is based on probability sampling but may accept quota sampling under certain circumstances (explain in proposal). IRI requests that all SES levels are included in the survey universe, and prefers coverage of the population aged 18+, but may accept other age coverage (explain in proposal). If the achieved sample deviates from official population, weighting may need to be employed to correct any gender, age, and potentially also educational attainment imbalances. Interviews may only be conducted by trained interviewers, and the applicant firm will detail any quality control measures in their proposal. IRI’s questions must be placed...
before any political questions but may be placed behind unrelated commercial questions IRI requests translation into Kiswahili, and into the main vernacular language of the following counties: Elgeyo Marakwet, Baringo, Bungoma, Kwale, Kilifi and Mombasa, unless the applicant firm explains in the proposal why translations besides Kiswahili would not be required in the 6 counties. IRI reserves the right to review the translation(s).

**Evaluation and Award Process**

1. IRI may contact any Bidder for clarification or additional information, but Bidders are advised that IRI intends to evaluate the offers based on the written proposals, without discussions, and reserves the right to make decisions based solely on the information provided with the initial proposals. IRI may but is not obligated to conduct additional negotiations with the most highly rated Bidders prior to award of a contract, and may at its sole discretion elect to issue contracts to one or more Bidders.
2. Mathematical errors will be corrected in the following manner: If a discrepancy exists between the total price proposed and the total price resulting from multiplying the unit price by the corresponding amounts, then the unit price will prevail and the total price will be corrected. If there is a discrepancy between the numbers written out in words and the amounts in numbers, then the amount expressed in words will prevail. If the Bidder does not accept the correction, the offer will be rejected.
3. IRI may determine that a proposal is unacceptable if the prices proposed are materially unbalanced between line items or sub-line items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly overstated or understated as indicated by the application of cost or price analysis techniques. A proposal may be rejected if IRI determines that the lack of balance poses an unacceptable risk.
4. IRI will conduct a source selection based as follows:
   - best value
     IRI intends to make an award to the responsible Bidder based on the following evaluation factors:
   - Technical evaluation, (including technical capabilities, proposed technical approach, and personnel qualifications) – 30 percent
b) Qualifications and experience (in Kenya or East Africa performing similar projects) – 30 percent

c) Expediency (ability to complete entire project in the soonest timeframe possible, but absolutely before May 31, 2020) – 20 percent

d) Price (lowest possible price while maintaining high-quality of product) – 25 percent

IRI intends to evaluate Bidders’ proposals in accordance with these factors and make an award to the responsible Bidder whose proposal is most advantageous to the program.

5. If a cost realism analysis is performed, cost realism may be considered in evaluating performance or price.
