Background

The International Republican Institute (IRI) is a nonprofit, nonpartisan, organization dedicated to advancing freedom and democracy worldwide. Since 1983, IRI has worked to develop democratic institutions and ideals, carrying out a variety of international programs to promote freedom, self-government and the rule of law worldwide. IRI provides technical assistance in the areas of political party strengthening, developing civic institutions and open elections, promoting democratic governance and advancing the rule of law.

Since 2003, the International Republican Institute (IRI) has supported the development of Bangladesh's democratic institutions through programs that amplify diverse voices, expand political space and foster accountable relationships. IRI will commission a series of focus group discussions with university students to assess youth perceptions of pressing socio-political and public policy priorities in the post-election context

Statement of Work

OBJECTIVES OF THE RESEARCH

Contractor agrees to provide professional services to IRI that entail data collection and entry for conducting a series of focus group discussions (FGDs) with university students across Bangladesh to understand the dynamics of youth opinion in the post-election environment. Please note that IRI will develop the methodology with feedback from the Contractor.

IRI'S INFORMATIONAL NEEDS

IRI needs to:

- 1. Understand how target audiences (i.e. Bangladeshi university students) view the current state of Bangladeshi politics.** Among this target audience, how do

participants describe current political conditions and recent events? What are their perceptions of major democratic and political institutions? Is democratic development (or lack thereof) a major issue to them? What do they think needs to be done to improve Bangladeshi democracy?

- 2. Understand how target audiences participate in politics or civic activities.** What political or civic activities does this target audience participate in? What actions do they view as necessary for being a good citizen? Are they aware of all available venues for political participation or civic engagement?

METHODOLOGY

The questions above are best addressed by a focus group study. Eight FGDs, each lasting approximately 90-120 minutes and attended by 8-10

All participants should be:

- Age 16 through 29 years old (male and female)
- Must be recruited from different areas within at least 4 geographic divisions
- Currently enrolled as a university student
- Express strong interest in seeking and sharing news about domestic, regional and global issues and events that they believe affect their lives and the future of their society

Focus group composition:

- FGDs will be separated by gender (one male and one female FGD per location or university)
- FGDs should include university students from varying levels (at least 2 first- or second-year students and at least 2 third- or fourth-year students)

GENERAL RESPONSIBILITIES OF THE CONTRACTOR

Contractor will be responsible for managing all logistical aspects of the project above and should engage local support staff as necessary to complete the following:

- **Screening Guide** IRI will provide a draft screening questionnaire within two weeks of contract award based on the specifications above. The Contractor will review and offer edits within three working days of receipt. Following IRI approval, the Contractor will translate the screening guide into Bangla. IRI reserves the right to review the translation prior to recruitment launch.
- **Recruiting participants:** The Contractor is responsible for the following aspects of the focus group discussions process: selecting, in consultation with IRI, moderators with sufficient expertise of the assigned topics areas to moderate successful discussion; participant selection and development of participant screening guides based on research methodology designed by IRI in collaboration with the Contractor; and organizing and leading all logistics.
- **Discussion Guide:** IRI will provide the draft discussion guide within four weeks of contract award. Contractor will be welcomed to offer suggestions for improvement and is expected to format and translate the discussion guide into Bangla. IRI reserves the right to review the translation(s). If feasible under time and funding constraints, the discussion guide will be piloted with a group of 8-10 pilot participants who fit the recruitment criteria. This pilot will be moderated by the same moderator who will moderate the actual groups. The pilot session(s) will be video (preferred) or audio recorded, and the recording will be provided to IRI. The Contractor will prepare a 1-2-page pilot report, based on a template provided by IRI. Once IRI has reviewed the template, some modification of the discussion guide may be required.

- **Focus Group Moderator:** Contractor will provide a trained and experienced moderator for groups in each location. The moderators should familiarize him/herself with the topic of discussion prior to the groups.
- **Fieldwork:** The focus group discussions shall be face-to-face. Informed consent (oral is acceptable unless country laws require written) must be sought prior to commencing the interview. IRI will provide draft informed consent language to the Contractor and this template may be updated by the Contractor to conform with the country's legal requirements.
- **Data Processing:** The Contractor shall transcribe all FGD sessions into English, providing individual transcripts for each FGD to IRI. Incomplete or poorly transcribed transcripts will be rejected.
- **Written Analytical Report:** In conjunction with IRI and based on IRI-provided template, the Contractor will develop a written, comprehensive report on all FGD findings and should be no longer than 5-7 pages. The report will be in English and in two formats: full transcripts in Microsoft Word and a cumulative analytical narrative report in Microsoft Word. The analysis is not a simple recitation of the data, this is an analysis that draws out the main takeaway and provides nuanced context. The reports produced will be the full property of IRI and IRI alone.
- **Timeline:** The Contractor will submit an expected timeline of implementation.

Evaluation and Award Process

1. IRI may contact any Bidder for clarification or additional information, but Bidders are advised that IRI intends to evaluate the offers based on the written proposals, without discussions, and reserves the right to make decisions based solely on the information provided with the initial proposals. IRI may but is not obligated to conduct additional negotiations with the most highly rated Bidders prior to award of a contract and may at its sole discretion elect to issue contracts to one or more Bidders.
2. Mathematical errors will be corrected in the following manner: If a discrepancy exists between the total price proposed and the total price resulting from multiplying the unit price by the corresponding amounts, then the unit price will prevail, and the total price will be corrected. If there is a discrepancy between the numbers written out in words and the amounts in numbers, then the amount expressed in words will prevail. If the Bidder does not accept the correction, the offer will be rejected.
3. IRI may determine that a proposal is unacceptable if the prices proposed are materially unbalanced between line items or sub-line items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly overstated or understated as indicated by the application of cost or price analysis techniques. A proposal may be rejected if IRI determines that the lack of balance poses an unacceptable risk.
4. IRI will conduct a source selection based as follows:

IRI intends to make an award to the responsible Bidder based on the following evaluation factors:

- a) Technical evaluation, (including technical capabilities, proposed technical approach, and personnel qualifications) – 30 percent
- b) Past performance and experience in performing similar projects – 20 percent
- c) Compliance with security and other administrative requirements – 20 percent
- d) Price – 30 percent

IRI intends to evaluate Bidders' proposals in accordance with these factors and make an award to the responsible Bidder whose proposal is most advantageous to the program.

5. If a cost realism analysis is performed, cost realism may be considered in evaluating performance or price.
