Background

The International Republican Institute (IRI) is a nonprofit, nonpartisan, organization dedicated to advancing freedom and democracy worldwide. Since 1983, IRI has worked to develop democratic institutions and ideals, carrying out a variety of international programs to promote freedom, self-government and the rule of law worldwide. IRI provides technical assistance in the areas of political party strengthening, developing civic institutions and open elections, promoting democratic governance and advancing the rule of law.

In compliance with local law governing registered organizations, IRI Sri Lanka requires a local auditing/accounting firm to carry out its annual audit of local finances and assist in various tax services such as computation and filing of income tax returns. The firm will conduct a full audit in line with Sri Lankan law and audit best practices and be available to provide tax advisory services.

Period of Performance

Date of signature through September 2020

Statement of Work

The Contractor will provide IRI with audit and tax services per Sri Lankan law and in line with local best practices. The Contractor will specifically:

- Conduct an annual audit of FY19/FY20 expenses for IRI-Sri Lanka in accordance with local law
 - The Contractor will prepare and file all required paperwork associated with the audit with the appropriate government authorities
- Compute and file annual income tax returns with the appropriate government authority in line with Sri Lankan legal requirements for registered entities
- Provide tax advisory services in relation to issues such as VAT tax exemptions
 - This service may be structured as a quarterly retainer, as appropriate to the services expected to be rendered.

Technical Proposals

All proposals submitted to IRI must include:

1. Information addressing your firm's experience in providing each of the services identified in the above Statement of Work and your proposed specific approach for providing those services to IRI under this contract, including sufficient information to determine a clear definition of services as it relates to other providers that may be involved.
2. The name, address, and telephone and facsimile numbers of the Offeror (and electronic address if available);
3. Names, titles, and telephone and facsimile numbers, and electronic addresses of persons authorized to negotiate and act on the Offeror's behalf with IRI in connection with this RFP and the resulting contract award.
4. Name, title, and signature of person authorized to sign the proposal. Proposals signed by an agent shall be accompanied by evidence of that agent's authority, unless that evidence has been previously furnished to the issuing office.
5. Offerors shall provide a list of at least five previously executed contracts of a similar nature for the last three years along with the contact details. IRI may contact the firm as reference check.
6. If the Offeror is a U.S. organization/resident, or a foreign organization/resident which has income effectively connected with the conduct of activities in the U.S. or has an office or a place of business or a fiscal paying agent in the U.S., the technical proposals must contain Offeror's Taxpayer Identification Number.
7. Proposals will not exceed 10 pages (not including cover page).

Price Proposals

The contractor will present the price by deliverable with associated fixed prices. The contract will be awarded in LKR. Quotations will need to delineate costs for an annual audit, computation and filing of income tax returns annually, and set tax advisory services.

The Offeror's pricing must be valid for at least 60 (sixty) calendar days after the due date for proposal submission. The proposed Unit Price should be fixed and inclusive of all costs to perform, including inspection services, transportation, taxes, import duties (if any), and other levies. To the extent that an Offeror proposed to include any pricing not reflected in the table below, such pricing must be fully described in the proposal. Proposals must be submitted in LKR, payments under any resulting contract will be made in this currency.

Evaluation and Award Process

1. IRI may contact any Offeror for clarification or additional information, but Offerors are advised that IRI intends to evaluate the offers based on the written proposals,

without discussions, and reserves the right to make decisions based solely on the information provided with the initial proposals. IRI may but is not obligated to conduct additional negotiations with the most highly rated Offerors prior to award of a contract, and may at its sole discretion elect to issue contracts to one or more Offerors.

2. Mathematical errors will be corrected in the following manner: If a discrepancy exists between the total price proposed and the total price resulting from multiplying the unit price by the corresponding amounts, then the unit price will prevail and the total price will be corrected. If there is a discrepancy between the numbers written out in words and the amounts in numbers, then the amount expressed in words will prevail. If the Offeror does not accept the correction, the offer will be rejected.
3. IRI may determine that a proposal is unacceptable if the prices proposed are materially unbalanced between line items or sub-line items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly overstated or understated as indicated by the application of cost or price analysis techniques. A proposal may be rejected if IRI determines that the lack of balance poses an unacceptable risk
4. IRI will conduct a source selection based as follows:

IRI intends to make an award to the responsible Offeror based on the following evaluation factors:

- a) Technical evaluation, (including technical capabilities, proposed technical approach, and personnel qualifications) – 30 percent
- b) Past performance and experience in performing similar projects – 30 percent
- c) Price – 40 percent

IRI intends to evaluate Offerors' proposals in accordance with these factors and make an award to the responsible Offeror whose proposal is most advantageous to the program.

5. If a cost realism analysis is performed, cost realism may be considered in evaluating performance or price.
