Background:

The International Republican Institute (IRI) is a nonprofit, nonpartisan, organization dedicated to advancing freedom and democracy worldwide. Since 1983, IRI has worked to develop democratic institutions and ideals, carrying out a variety of international programs to promote freedom, self-government and the rule of law worldwide. IRI provides technical assistance in the areas of political party strengthening, developing civic institutions and open elections, promoting democratic governance and advancing the rule of law.

Relative to other low- and middle-income countries, Timor-Leste ranks poorly, with a score of 0.02 out of 1, in Information Communications Technology (ICT) capacity on USAID's Journey to Self-Reliance roadmap. MPs and their staff lack the technical capacity to effectively use ICT tools, including the use of email, in their constituent engagement and external relations efforts. As stated in the NP's 2018-2022 Information Technology (IT) Strategic Plan, the NP does not offer an ICT program for NP staff to build their ICT skillset and neither MPs elected in 2018 nor their staff have received any ICT training to date. To address this, IRI will conduct a series of six IT capacity building workshops for MPs to be conducted in 2020. The workshops will be conducted in small groups to promote more intensive hands-on training for MPs

Period of Performance:

Date of Signature through December 31, 2020
