IRI may but is not obligated to conduct additional negotiations with the most highly rated Bidders prior to award of a contract and may at its sole discretion elect to issue contracts to one or more Bidders.
2. Mathematical errors will be corrected in the following manner: If a discrepancy exists between the total price proposed and the total price resulting from multiplying the unit price by the corresponding amounts, then the unit price will prevail and the total price will be corrected. If there is a discrepancy between the numbers written out in words and the amounts in numbers, then the amount expressed in words will prevail. If the Bidder does not accept the correction, the offer will be rejected.
3. IRI may determine that a proposal is unacceptable if the prices proposed are materially unbalanced between line items or sub-line items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly overstated or understated as indicated by the application of cost or price analysis techniques. A proposal may be rejected if IRI determines that the lack of balance poses an unacceptable risk.
4. IRI will conduct a source selection based as follows:

IRI intends to make an award to the responsible Bidder based on the following evaluation factors:

- a) Proposed technical approach – 30 percent
  - *Ability and Capacity to conduct FGD in the regions listed in the RFP (15 percent)*
  - *Sample methodology (10 percent)*
  - *Ability to work in timeframe (5 percent)*
- b) Past experience conducting qualitative research in Georgia – 15 percent
- c) Valid accreditation in public research – 10 percent
- d) Price – 45 percent

IRI intends to evaluate Bidders’ proposals in accordance with these factors and make an award to the responsible Bidder whose proposal is most advantageous to the program.

5. If a cost realism analysis is performed, cost realism may be considered in evaluating performance or price.
