IRI provides technical assistance in the areas of political party strengthening, developing civic institutions and open elections, promoting democratic governance and advancing the rule of law.

IRI seeks to understand citizen perceptions towards democratic institutions and actors in Kyrgyzstan by 1) identifying what the critical appeal and reasons for support are for President Japarov within key target demographics. 2) understand the level of support from key politicians before and after President Jekarov was elected 3) and what the implications of these findings mean for future democratic institutions and initiatives in Kyrgyzstan.

Statement of Work

QUALITATIVE RESEARCH IN KYRGYZSTAN
Focus Groups on Perceptions of the Presidency

OBJECTIVES OF THE RESEARCH

Insert your primary research objective: to better understand male citizen's perceptions and level of support for President Japarov, the level of political corruption that exists in Kyrgyzstan before and after the election of President Japarov, and the overall performance of key government institutions.

IRI'S INFORMATIONAL NEEDS

IRI needs to:

1. **Understand the reasons for President Japarov's popularity among male citizens in Kyrgyzstan.** Among different age groups (18-35 years old and 36+), how do participants describe the nature, causes, and effects of these Japarov's presidency on their lives and the country? Which policy areas has Japarov made the most progress on, and which areas still need to be addressed? Of the issues that still need to be addressed, which aspects are not covered as fully or as well/objectively as they should be, and why?
2. **Understand male perception of political corruption before and after the election of President Japarov.** What is the perception of key politicians currently holding office? Are they more or less corrupt than the officials who held office prior to the election of President Japarov?
3. **Understand which government institutions receive the highest and lowest ratings among males in Kyrgyzstan.** What are the reasons for satisfaction or dissatisfaction? The personnel of the leaders running the government institution? The function that the institution performs? The perceived efficiency or lack thereof?
4. **Understand more broadly how young males view the state of democracy in Kyrgyzstan, presently and how that might change in the future.** Would participants be in favor of more robust democratic intuitions? Why or why not?

METHODOLOGY

The questions above are best addressed by two rounds of focus group discussions. Each round will contain fourteen groups, each lasting approximately 90-120 minutes and attended by 8-10 participants, should take place, two in each city, which will include Balykchy, Talas, Naryn, and Jalalabad. Three additional cities will be determined, with close collaboration with IRI, at a later date.

All participants should be:

- Males who are eligible to vote.
- Must be recruited from different neighborhoods within the research location cities of Balykchy, Talas, Naryn, and Jalalabad, as well as three other specific localities that will be determined in the future with close collaboration with IRI.
- Completed secondary education.
- Participants in the same focus group session may not know one another.
- No participants may have participated in a focus group or in-depth interview study in the past 12 months.

Focus group composition:

- Among each set of sessions in the same city, one group shall be with males who are 18-35, and the other with males 36+.

GENERAL RESPONSIBILITIES OF THE OFFEROR

IRI is cognizant of challenges associated with the Coronavirus. IRI is open to the offeror's recommendations in the proposal to mitigate risks. IRI will accept participant recruitment by phone/online, and online FGDs, as long as the bidder is able to demonstrate that online fieldwork has been carefully planned for success.

Offeror will be responsible for managing all logistical aspects of the project above and should engage local support staff as necessary to complete the following:

- **Screener.** IRI will provide a draft screening questionnaire within two weeks of contract award based on the specifications above. The Offeror will review offer edits within three working days of receipt. Following IRI approval, the Offeror will translate the screener into [language]. IRI reserves the right to review the translation prior to recruitment launch.
- **Recruiting participants.** Offeror will recruit all participants according to the screening criteria listed above. At least one week prior to the start of the first focus group session, the Offeror will provide a brief description of the composition of the groups in terms of age, gender, occupation, etc. Offeror should recruit 8-10 participants for each group as well as 2-3 alternates in case any of the original participants are unable to participate. All participants will be required to give written informed consent to participate in this study. At least one week prior to the first planned session, the discussion guide will be piloted with a group of 8-10 pilot participants who fit the recruitment criteria. This pilot will be moderated by the same moderator who will moderate the actual groups. The pilot session(s) will be video (preferred) or audio recorded and the recording will be provided to IRI. The Offeror will prepare a 1–2-page pilot report, based on a template provided by IRI. Once IRI has reviewed the template, some modification of the discussion guide may be required.

- **Observation.** The Offeror will provide an opportunity for IRI staff to observe the focus group discussions remotely.
- **Recording of focus group discussions.** Audio and/or video record all aspects of research necessary for full and accurate data collection, transcript generation and inclusion of illustrative samples in the final analytical report. Offeror will film focus groups and film should be high quality with clear sound. If participants do not consent to videotaping, audio recordings are acceptable.
- **Written summary of focus group discussions.** Offeror will provide a 2–3-page written summary of the focus group discussions in idiomatic English within one week after the final focus group session. A template will be provided by IRI.

Evaluation and Award Process

1. IRI may contact any Bidder for clarification or additional information, but Bidders are advised that IRI intends to evaluate the offers based on the written proposals, without discussions, and reserves the right to make decisions based solely on the information provided with the initial proposals. IRI may but is not obligated to conduct additional negotiations with the most highly rated Bidders prior to award of a contract and may at its sole discretion elect to issue contracts to one or more Bidders.
2. Mathematical errors will be corrected in the following manner: If a discrepancy exists between the total price proposed and the total price resulting from multiplying the unit price by the corresponding amounts, then the unit price will prevail and the total price will be corrected. If there is a discrepancy between the numbers written out in words and the amounts in numbers, then the amount expressed in words will prevail. If the Bidder does not accept the correction, the offer will be rejected.
3. IRI may determine that a proposal is unacceptable if the prices proposed are materially unbalanced between line items or sub-line items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly overstated or understated as indicated by the application of cost or price analysis techniques. A proposal may be rejected if IRI determines that the lack of balance poses an unacceptable risk.
4. IRI will conduct a source selection based as follows:

IRI intends to make an award to the responsible Bidder based on the following evaluation factors:

- a) Technical evaluation, (including technical capabilities, proposed technical approach, and personnel qualifications) – 30 percent
 - a. *Capacity to perform Scope of Work*
- b) Experience in performing similar projects – 40 percent
 - a. *Experience conducting similar FGD projects in Kyrgyzstan*
- c) Price – 30 percent

IRI intends to evaluate Bidders' proposals in accordance with these factors and make an award to the responsible Bidder whose proposal is most advantageous to the program.

5. If a cost realism analysis is performed, cost realism may be considered in evaluating performance or price.
