### Background

The International Republican Institute (IRI) is a nonprofit, nonpartisan, organization dedicated to advancing freedom and democracy worldwide. Since 1983, IRI has worked to develop democratic institutions and ideals, carrying out a variety of international programs to promote freedom, self-government and the rule of law worldwide. IRI provides technical assistance in the areas of political party strengthening, developing civic institutions and open elections, promoting democratic governance and advancing the rule of law.

IRI is expecting to receive US Department of State funding for conducting research on the foreign policy preferences of Hungary's electorate and how their views on foreign policy will affect how they will vote in the April 2022 parliamentary elections. IRI is seeking a contractor to conduct two waves of focus groups, one pre- and post-election to study how foreign policy preferences affected Hungarian voters and their decisions on how to vote in the elections. IRI will ensure that all funding is secure before the awarding of a final contract with the bidder.

### Period of Performance

November 2021-October 31 2022, with the option to extend for a total duration of up to 5 years up in four one-year increments.

### Statement of Work

#### OBJECTIVES OF THE RESEARCH

Wave 1 (Pre-election): Gain an in-depth understanding of constituents' foreign policy views and test political party messages developed to address voters' concerns. Understand why constituents hold the foreign policy views they have and why it influences their vote in the election.

Wave 2 (Post-election): Understand what political parties did right and what they did wrong regarding election campaign messaging. Gain a clearer picture of voter behavior in the election and better understand the role their foreign policy messages played.

## **METHODOLOGY**

The questions above are best addressed by an in-person focus group study. For each wave, six groups, each lasting approximately 90-120 minutes and attended by 8-10 participants, should take place, three in Budapest and one each in three secondary cities, which will be determined jointly with the winning bidder.

For the three Budapest groups, the groups will be divided as follows:

Wave 1/Pre-election:

- One group who plan to vote for the current government
- One group who plan to vote for the opposition
- One group who are undecided

Wave 2/Post-election:

- One group who voted for the winning party/coalition
- One group who voted for a losing party/coalition
- One group who voted but were undecided until shortly before the election

All participants should be:

- 18 and older
- Must be recruited from different neighborhoods within the research location cities
- Wave 1/Pre-election: expressed intention to vote
- Wave/Post-election: voted in the election
- Participants in the same focus group session may not know one another.
- No participants may have participated in a focus group or in-depth interview study in the past 12 months.

## **GENERAL RESPONSIBILITIES OF THE OFFEROR**

IRI is cognizant of challenges associated with the Coronavirus. IRI is open to the offeror's recommendations in the proposal to mitigate risks. IRI will accept participant recruitment by phone/online, and online FGDs, as long as the bidder is able to demonstrate that online fieldwork has been carefully planned for success. If FGDs are held online, group size may be reduced to 5-7 participants, and an extra group per wave will be held to compensate for the smaller group size.

Offeror will be responsible for managing all logistical aspects of the project above and should engage local support staff as necessary to complete the following:

- **Screener.** IRI will provide a draft screening questionnaire within two weeks of contract award based on the specifications above. The Offeror will review offer edits within three working days of receipt. Following IRI approval, the Offeror will translate the screener into Hungarian. IRI reserves the right to review the translation prior to recruitment launch.
- **Recruiting participants.** Offeror will recruit all participants according to the screening criteria listed above. At least one week prior to the start of the first focus group

session, the Offeror will provide a brief description of the composition of the groups in terms of age, gender, occupation, etc. Offeror should recruit 8-10 participants for each group as well as 2-3 alternates in case any of the original participants are unable to participate. All participants will be required to give written informed consent to participate in this study. IRI will provide draft informed consent language which may be adjusted by the bidder in order to conform to any specific legal requirements in the research country.

- **Discussion guide.** IRI will provide the draft discussion within four weeks of contract award. Offeror will be welcome to offer suggestions for improvement and is expected to format and translate the discussion guide into Hungarian. IRI reserves the right to review the translation(s).
- **Focus group moderator.** Offeror will provide a trained and experienced moderator for groups in each city. The moderators should familiarize him/herself with the topic of discussion prior to the groups. The moderator will participate in a training of up to 2 hours with IRI staff.
- **Observation.** The Offeror will provide an opportunity for IRI staff to observe the focus group discussions.
- **Recording of focus group discussions.** Audio and/or video record all aspects of research necessary for full and accurate data collection, transcript generation and inclusion of illustrative samples in the final analytical report. Offeror will film focus groups and film should be high quality with clear sound. If participants do not consent to videotaping, audio recordings are acceptable.
- **Written summary of focus group discussions for each wave.** Offeror will provide a 2-3 page written summary of the focus group discussions in idiomatic English within one week after the final focus group session. A template will be provided by IRI.
- **Transcripts.** The Offeror will provide IRI with full verbatim transcripts in English of each group that will identify each participant speaker by number or first name to link each comment to the participant's gender, exact age, education level, city and occupation.
- **Written analytical report.** For each wave, offeror will analyze all discussions, and write and edit final analytic report (see Deliverables) for review, editing and acceptance by IRI within four weeks of the final focus group session. IRI will provide a report template. The report is expected to synthesize findings across all participants and all discussion sessions, while noting to any major differences of opinions between participants and sessions. The report must present actual analysis (i.e. not mere description) and illustrative quotes from participants.

## **DELIVERABLES FOR EACH WAVE**

- Finalized discussion guide (incl translation where applicable)
- Proposed Participant Profile
- Written summary as specified above.
- Full transcripts of all discussions, as described above.
- Video/Audio recordings of the discussions interviews, with clear audio. Recording should be delivered to IRI electronically (for example via a file transfer service) or delivered to the local IRI office.
- Analytic report of approximately 30 slides MS PowerPoint in idiomatic English, which includes a one or two page/slide executive summary, addressing the research needs outlined above.

## TIMING

The wave 1 (pre-election) focus group discussions should be held in October/November 2021 and wave 2 (post-election) focus group discussions should be held in May/June 2022; the exact timing needs to be determined in close consultation with IRI.

## Evaluation and Award Process

1. IRI may contact any Bidder for clarification or additional information, but Bidders are advised that IRI intends to evaluate the offers based on the written proposals, without discussions, and reserves the right to make decisions based solely on the information provided with the initial proposals. IRI may but is not obligated to conduct additional negotiations with the most highly rated Bidders prior to award of a contract, and may at its sole discretion elect to issue contracts to one or more Bidders.
2. Mathematical errors will be corrected in the following manner: If a discrepancy exists between the total price proposed and the total price resulting from multiplying the unit price by the corresponding amounts, then the unit price will prevail and the total price will be corrected. If there is a discrepancy between the numbers written out in words and the amounts in numbers, then the amount expressed in words will prevail. If the Bidder does not accept the correction, the offer will be rejected.
3. IRI may determine that a proposal is unacceptable if the prices proposed are materially unbalanced between line items or sub-line items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly overstated or understated as indicated by the application of cost or price analysis techniques. A proposal may be rejected if IRI determines that the lack of balance poses an unacceptable risk.
4. IRI will conduct a source selection based as follows:

IRI intends to make an award to the responsible Bidder based on the following evaluation factors:

- a) Technical evaluation, (including technical capabilities, proposed technical approach, and personnel qualifications) –40 percent  
Language: Posses high proficiency in Hungarian and English-20 percent  
Sampling Methodology-20 percent
- b) 5 years experience in performing similar projects – 30 percent
- c) Price – 30 percent

IRI intends to evaluate Bidders' proposals in accordance with these factors and make an award to the responsible Bidder whose proposal is most advantageous to the program.

5. If a cost realism analysis is performed, cost realism may be considered in evaluating performance or price.
