Background

The International Republican Institute (IRI) is a nonprofit, nonpartisan, organization dedicated to advancing freedom and democracy worldwide. Since 1983, IRI has worked to develop democratic institutions and ideals, carrying out a variety of international programs to promote freedom, self-government and the rule of law worldwide. IRI provides technical assistance in the areas of political party strengthening, developing civic institutions and open elections, promoting democratic governance and advancing the rule of law.

IRI's is a rapid qualitative study of the governance needs of returned internally displaced persons (IDPs) in Mosul and Al Hamadaniyah districts in the Nineveh Province, a vast number of whom were displaced from their homes on the Nineveh Plains by Da'esh. IRI's study would fill a gap in research into the needs of Iraq's returned IDPs in these districts to insure inclusive and democratic reintegration and prevent against secondary displacement. There are two parallel issues that IRI aims to study through focus groups and targeted interviews with key stakeholders: the needs and expectations of returned IDPs, and those of the governments in both the districts of focus.

Period of Performance

December 11, 2018 – January 31, 2019

Statement of Work

Selected bidder will be required to:

- Conduct 5-10 focus groups FGDs in the returned IDP communities in IRI's two target districts within the Nineveh Province: 2-5 focus groups in Al Hamadaniyah District, 2-5 in Mosul District of randomly selected IDPs who have returned to their communities. Control for demographics: age, gender, economic strata, length of displacement, Christian denomination (Chaldeans, Assyrians, Armenians, Eastern Orthodox and Catholics) and potentially other demographics as determined in collaboration with IRI.

Specifically, selected bidder will conduct focus groups using a focus group protocol developed by IRI, to a sample of persons from the returned IDP community in these

target districts. The contractor will use a pre-screening questionnaire to recruit from the returned IDP community in a way that comports with IRI's intended disaggregation which will control for demographics: age, gender, economic strata, Christian denomination (Chaldeans, Assyrians, Armenians, Eastern Orthodox and Catholics), and potentially other demographics as determined in collaboration with IRI. IRI will provide written approval for the pool of recruited participants prior to fieldwork. A survey with social network questions will be distributed during focus groups and collected by Contractor, who will then record findings in a database provided by IRI. The survey developed by IRI will contain approximately 10 closed and two open-ended questions and will take participants approximately 15 minutes to complete. The contractor will send transcribed FGD transcripts, as well as translated open-ended survey questions to IRI in English.

The fielding of the focus groups will be considered complete when IRI receives the data collected by the applicant. Collected data is due to IRI within 10 business days of field work completion.

- Conduct 10-20 in-depth interviews (face-to-face/phone):
The contractor will hold 10-20 in-person or phone interviews using an IRI-developed interview protocol with a sample of the participants in Arabic. Interviews will include 10-20 interviews of local political, religious and CSO stakeholders. The targets and sampling of these stakeholders will be informed by social network questions distributed in the survey for the focus groups and in collaboration with IRI. The contractor will collect data during these interviews, translate and transmit it to IRI staff for data analysis in both the language of collection and in English.

This activity will be considered completed when IRI receives the data collected by the applicant. IRI shall receive the interview data within 10 business days of field work completion.

Selected bidder may be required to travel (international and/or locally) on behalf of IRI while completing the scope of work above.

Evaluation and Award Process

1. IRI may contact any Bidder for clarification or additional information, but Bidders are advised that IRI intends to evaluate the offers based on the written proposals, without discussions, and reserves the right to make decisions based solely on the information provided with the initial proposals. IRI may but is not obligated to conduct additional negotiations with the most highly rated Bidders prior to award of a contract, and may at its sole discretion elect to issue contracts to one or more Bidders.
2. Mathematical errors will be corrected in the following manner: If a discrepancy exists between the total price proposed and the total price resulting from multiplying the unit price by the corresponding amounts, then the unit price will prevail and the total price will be corrected. If there is a discrepancy between the numbers written out in words and the amounts in numbers, then the amount expressed in words will prevail. If the Bidder does not accept the correction, the offer will be rejected.

3. IRI may determine that a proposal is unacceptable if the prices proposed are materially unbalanced between line items or sub-line items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly overstated or understated as indicated by the application of cost or price analysis techniques. A proposal may be rejected if IRI determines that the lack of balance poses an unacceptable risk.
4. IRI will conduct a source selection based as follows:

IRI intends to make an award to the responsible Bidder based on the following evaluation factors:

- a) Technical evaluation, (including technical capabilities, proposed technical approach, and personnel qualifications) – 40 percent
 - i. Personnel qualifications (20 pts)
 - ii. Proposed technical approach (20 pts)
- b) Past performance and experience in performing similar projects – 30 percent
 - i. Experience in data collection and interviews (20)
 - ii. Experience in translation (10)
- c) Price – 20 percent

IRI intends to evaluate Bidders' proposals in accordance with these factors and make an award to the responsible Bidder whose proposal is most advantageous to the program.

5. If a cost realism analysis is performed, cost realism may be considered in evaluating performance or price.
