Background:

The International Republican Institute (IRI) is a nonprofit, nonpartisan, organization dedicated to advancing freedom and democracy worldwide. Since 1983, IRI has worked to develop democratic institutions and ideals, carrying out a variety of international programs to promote freedom, self-government and the rule of law worldwide. IRI provides technical assistance in the areas of political party strengthening, developing civic institutions and open elections, promoting democratic governance and advancing the rule of law.

IRI is working to support Algerian democrats in the democratic transition via dialogue and consultations with key stakeholders. However, IRI does not have a country office in Algeria and therefore requires a local facilitator who can work part time and assist IRI when necessary. This facilitator will maintain contact with IRI's on the ground partners, oversee local programmatic logistics, participate in meetings/workshops with local stakeholders, and assist with monitoring and evaluation. Should IRI's DC staff travel to Algeria for the program this individual will also be responsible for helping to organize transportation, lodging, and meeting space. Finally, this individual should be able to serve as a translator. Fluency in Arabic, French and English is preferred.

Period of Performance:

- Interpreting training content and speech during meetings delivered in French or Arabic into English for IRI DC staff.
- Establish and maintain relationships with IRI partners and participants.

- Facilitating general logistics during IRI DC's visits to Algeria, as needed.
- Provide weekly updates to IRI HQ on program activities, consultations, and news in Algeria.
- Be responsible for keeping all information regarding meetings, attendance at events, IRI programming, and all communication with both IRI and all partners and political parties private. This information will not be shared with anyone unless expressly permitted by IRI expatriate staff or MENA Division leadership in Washington, DC.
- Other duties as assigned or deemed necessary.

7. Discussions with Bidders following the receipt of a bid do not constitute a rejection or counteroffer by IRI.

Bids will be evaluated by IRI for compliance with administrative requirements, recent and relevant past performance and experience in performing of similar projects by the Bidder, technical capabilities and proposed technical approach, the qualifications of the personnel for the project, and price. IRI may contact any Bidder for clarification or additional information, but Bidders are advised that IRI intends to evaluate the offers based on the written bids and reserves the right to make decisions based solely on the information provided with the initial bids. IRI may but is not obligated to conduct additional negotiations with the most highly rated Bidders prior to award of a contract, and may at its sole discretion elect to issue contracts to one or more Bidders.
2. Mathematical errors will be corrected in the following manner: If a discrepancy exists between the total price proposed and the total price resulting from multiplying the unit price by the corresponding amounts, then the unit price will prevail and the total price will be corrected. If there were a discrepancy between the numbers written out in words and the amounts in numbers, then the amount expressed in words will prevail. If the Bidder does not accept the correction, the offer will be rejected.
3. IRI may determine that a bid is unacceptable if the prices proposed are materially unbalanced between line items or sub-line items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly overstated or understated as indicated by the application of cost or price analysis techniques. A bid may be rejected if IRI determines that the lack of balance poses an unacceptable risk.
4. IRI intends to make an award to the responsible Offeror based on the following evaluation factors:
 - a) Past performance and experience in performing similar projects – 30 percent
 - b) Fluency in French, Arabic, and English – 30 percent
 - c) Cost efficiency, flexibility – 40 percent

IRI intends to evaluate Offerors' proposals in accordance with these factors and make an award to the responsible Offeror whose proposal is most advantageous to the program.

5. If a cost realism analysis is performed, cost realism may be considered in evaluating performance or price.
