Background

The International Republican Institute (IRI) is a nonprofit, nonpartisan, organization dedicated to advancing freedom and democracy worldwide. Since 1983, IRI has worked to develop democratic institutions and ideals, carrying out a variety of international programs to promote freedom, self-government and the rule of law worldwide. IRI provides technical assistance in the areas of political party strengthening, developing civic institutions and open elections, promoting democratic governance and advancing the rule of law.

IRI Tunisia will be producing and broadcasting a reality competition show. The show will follow contestants as they work through a series of different challenges showcasing their leadership ability and knowledge of the Tunisian civic space. After a pre-screening, contestants will be selected from regions representing all of Tunisia. In each episode they will complete a task that requires them to master a new aspect of civic activism – to advocate for their community, understand and explain the budgeting process, manage a campaign, etc. The audience will vote for the winner to advance to the next round. Episodes will document the contestants' efforts while also showcasing the civic environment in different regions of Tunisia.

Evaluation and Award Process

1. IRI may contact any Bidder for clarification or additional information, but Bidders are advised that IRI intends to evaluate the offers based on the written proposals, without discussions, and reserves the right to make decisions based solely on the information provided with the initial proposals. IRI may but is not obligated to conduct additional negotiations with the most highly rated Bidders prior to award of a contract, and may at its sole discretion elect to issue contracts to one or more Bidders.
2. Mathematical errors will be corrected in the following manner: If a discrepancy exists between the total price proposed and the total price resulting from multiplying the unit price by the corresponding amounts, then the unit price will prevail and the total price will be corrected. If there is a discrepancy between the numbers written out in

words and the amounts in numbers, then the amount expressed in words will prevail. If the Bidder does not accept the correction, the offer will be rejected.

3. IRI may determine that a proposal is unacceptable if the prices proposed are materially unbalanced between line items or sub-line items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly overstated or understated as indicated by the application of cost or price analysis techniques. A proposal may be rejected if IRI determines that the lack of balance poses an unacceptable risk.
4. IRI intends to make an award to the responsible Bidder based on the following evaluation factors:
 - a) Availability to travel to all production locations– 20 percent
 - b) Demonstrated experience and contact list identifying key media organizations, content creators, municipal leaders, CSO representatives, and municipal council members and staff– 30 percent
 - c) Ability to draft substantive reports on weekly activities, meetings, conversations, and relevant political developments in given municipality– 30 percent
 - d) Price – 20 percent

IRI intends to evaluate Bidders' proposals in accordance with these factors and make an award to the responsible Bidder whose proposal is most advantageous to the program.

5. If a cost realism analysis is performed, cost realism may be considered in evaluating performance or price.
