Background

The International Republican Institute (IRI) is a nonprofit, nonpartisan, organization dedicated to advancing freedom and democracy worldwide. Since 1983, IRI has worked to develop democratic institutions and ideals, carrying out a variety of international programs to promote freedom, self-government and the rule of law worldwide. IRI provides technical assistance in the areas of political party strengthening, developing civic institutions and open elections, promoting democratic governance and advancing the rule of law.

Since 2005, IRI's program in Jordan has focused on connecting citizens with government by promoting democratic governance practices, strengthening political parties, and building the political skills of women through IRI's Women's Leadership Academy. At the local level, IRI supports citizen committees and develops citizens' advocacy skills as well as working closely with elected municipal officials to increase their responsiveness to constituents through conducting outreach activities like town hall meetings, city clean-up days, and participatory planning/budgeting sessions.

Through earlier qualitative research, IRI identified that youth in Jordan are hesitant to engage in political processes due to lack of knowledge or even from misinformation. In order to provide accurate information on democratic institutions in a consumable and scalable format, IRI would like to work with a professional video production company to develop short videos to be distributed online and promoted through IRI platforms.

IRI seeks the services of a creative video production company or individual to partner with our IRI Jordan team to produce informative and engaging civic education video content.

Evaluation and Award Process

1. IRI may contact any Bidder for clarification or additional information, but Bidders are advised that IRI intends to evaluate the offers based on the written proposals, without discussions, and reserves the right to make decisions based solely on the information provided with the initial proposals. IRI may but is not obligated to conduct additional negotiations with the most highly rated Bidders prior to award of a contract, and may at its sole discretion elect to issue contracts to one or more Bidders.
2. Mathematical errors will be corrected in the following manner: If a discrepancy exists between the total price proposed and the total price resulting from multiplying the unit price by the corresponding amounts, then the unit price will prevail and the total price will be corrected. If there is a discrepancy between the numbers written out in words and the amounts in numbers, then the amount expressed in words will prevail. If the Bidder does not accept the correction, the offer will be rejected.
3. IRI may determine that a proposal is unacceptable if the prices proposed are materially unbalanced between line items or sub-line items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly overstated or understated as indicated by the application of cost or price analysis techniques. A proposal may be rejected if IRI determines that the lack of balance poses an unacceptable risk.

4. IRI will conduct a source selection based as follows:

Best Value: IRI intends to make an award to the responsible Bidder based on the following evaluation factors:

Technical criteria	70
<i>Number of years' experience in video production (2 years preferred)</i>	<i>40</i>
<i>Experience working with civic education/political content as demonstrated by examples of previous work</i>	<i>30</i>
Price	30
Total	100

IRI intends to evaluate Bidders' proposals in accordance with these factors and make an award to the responsible Bidder whose proposal is most advantageous to the program.

5. If a cost realism analysis is performed, cost realism may be considered in evaluating performance or price.
