**Background**

The International Republican Institute (IRI) is a nonprofit, nonpartisan, organization dedicated to advancing freedom and democracy worldwide. Since 1983, IRI has worked to develop democratic institutions and ideals, carrying out a variety of international programs to promote freedom, self-government and the rule of law worldwide. IRI provides technical assistance in the areas of political party strengthening, developing civic institutions and open elections, promoting democratic governance and advancing the rule of law.

The International Republican Institute is implementing a program to support the government of Peru and local civil society to develop plans to implement reforms that comply with regional anticorruption best practices. To achieve this objective, IRI must ensure that the proposed reforms meet the needs of the citizens and have buy-in from other national stakeholders. As a result, IRI will solicit feedback and understand the perspective of non-government actors on three focus areas: judicial administration and reform, political and electoral management and corruption prevention and culture of integrity. The contracted public opinion research firm will conduct these focus group discussions (FGDs) or in-depth interviews (IDIs) to gather feedback from identified, key non-government stakeholders in Peru. The stakeholders will include business associations, attorneys, legal groups, journalists, chambers of commerce, selected CSOs, academia, consumer protection agencies, among others.

**Period of Performance**

Date of Award (estimated May 1, 2020) - August 14, 2020.

**Statement of Work**

The selected contractor will coordinate with IRI and IRI’s implementing partner, to conduct a series of focus group discussions and/or in-depth interviews to better understand non-government stakeholder opinions and feedback regarding a set of anticorruption reform priorities. These priorities include political and electoral management, judicial administration and reform, and corruption preventive measures and culture of integrity.
The feedback gathered will help IRI assess NGO, civil society and private sector views on the reform priorities identified. IRI and its local partner will present a report on this feedback and recommendations to government stakeholders.

IRI and its implementing partner will provide the following inputs for the contractor to conduct a focus group or in-depth interview study:

- A draft screening questionnaire within two weeks of contract award.
- Screening criteria including a list of key non-government stakeholders in the research country.
- A draft discussion guide within four weeks of contract award.
- Draft informed consent language which can be adjusted by the bidder to conform to legal requirements in the research country.

The contractor may propose: a focus group study, in-depth interview or a combination of both methods. The focus groups discussions or in-depth interviews should be held between May 2020 and August 2020; the exact timing needs to be determined in close consultation with IRI.

(1) General Responsibilities of Bidder

The bidder shall be responsible for the design and execution of the focus group discussions or in-depth interviews, including the following tasks:

Screening

- The bidder will review and offer edits of the draft screening questionnaire within three working days of receipt.
- The bidder will translate the screener into Spanish. IRI reserves the right to review the translation prior to recruitment launch.

Recruitment

- The bidder will recruit all participants according to the screening criteria provided by IRI. One week prior to the first focus group discussion or in-depth interview the bidder will provide a brief description of the composition of the participants (gender, age, occupation, etc).
- If discussion groups are conducted, the bidder should recruit 8-10 participants for each groups as well as 2-3 alternates in case any original participants are unable to participate. If in-depth interviews are conducted, the bidder will recruit a sufficient number of alternates.
- All participants will be required to give written informed consent to participate in this study. IRI will draft informed consent language which may be adjusted by the bidder in order to conform to any specific legal requirements in the research country.

Discussion Guide
- The bidder will review and provide suggestions for improvement to the draft discussion guide and is expected to format and translate the discussion guide into Spanish. IRI reserves the right to review the translation(s).
- The discussion guide will be piloted with a group of 8-10 pilot participants or three (3) in-depth interviewees who fit the recruitment criteria. If a focus group discussion is conducted, his pilot will be moderated by the same moderator who will moderate the actual groups. If an in-depth interview study is conducted, the pilot in-depth interviews will be conducted by the same qualitative interviewers who will conduct the actual IDIs. The pilot session(s) will be video (preferred) or audio recorded, and the recording will be provided to IRI.
- The bidder will prepare a 1-2-page pilot report based on a template provided by IRI.

Focus Group Moderator and/or qualitative interviewer

- The bidder will provide a trained and experienced moderator and/or qualitative interviewer.
- The moderator and/or qualitative interviewer should familiarize him/herself with the topic of discussion prior to the discussion groups or interviews.

Observation

- The bidder will provide for all FGDs a facility from which Spanish-speaking IRI and IRI-partner staff may unobtrusively observe. For IDIs, the bidder will make an attempt to allow for unobtrusive observation, but IRI understand that this may not be possible, should an interviewee elect to be interviewed in their office/home or similar.

Recording

- The bidder will audio and/or video record all aspects of research necessary for full and accurate data collection, transcript generation and inclusion of illustrative samples in the final analytical report. The bidder will film focus groups or interviews and film should be in high quality with clear sound.
- If participants do not consent to videotaping, audio recordings are acceptable.

(2) Methodology

IRI needs to obtain feedback from key non-government stakeholders on the following three priorities:
- Political and electoral management
- Judicial administration and reform
- Corruption preventive measures and the culture of integrity

This can be addressed by a focus group or in-depth interview study, or a combination of both. Contingent upon availability of funds, IRI anticipates conducting three (3) FGD sessions (Option A) or six (6) FGD sessions (Option B), each lasting approximately 90 minutes and attended by 8-10 participants; or an in-depth interview study consisting of 10 in-depth
interviews (Option C) or 15 in-depth interviews (option D), each lasting approximately 60-90 minutes or a combination thereof. Based on its assessment of the research design, the bidder can propose which method, or a combination of the two, is the most adequate to achieve the objective. Unless otherwise recommended by the bidder and approved by IRI, all FGDs and IDIs should take place in Lima.

Participants should meet the following criteria:
- Members of non-government sectors including civil society, academia, private sector and other citizen groups
- Members of list of stakeholders agreed upon by IRI, TRANSPARENCIA and the winning bidder. This list will be used by the bidder as a starting point for recruitment, and the bidder may use snowball recommendations of list members to recruit alternates
- No participants may have participated in a focus group in the past 12 months.

(3) Summary, Transcripts, and Analytical Report

When delivering data, the bidder shall provide the following:
- A 2-3-page written summary of the focus group discussion or in-depth interviews in Spanish within 2 weeks after the final focus group session or interview. A template will be provided by IRI.
- The bidder will provide IRI with full verbatim transcripts in Spanish of each group or interview that will identify each participant speaker by number or first name to link each comment to the participant’s gender, exact age, education level, city and occupation.
- The bidder will analyze all discussions or interviews and write and edit a final analytic report (see Deliverables) for review, editing and acceptance by IRI within four weeks of the final focus group session or interviews. IRI will provide a report template. The report is expected to synthesize findings across all participants and all discussion sessions or interviews, while noting to any major differences of opinions between participants and sessions. The report must present actual analysis and illustrative quotes from participants.

(4) Deliverables

The program will be based on six (6) overarching milestones with deliverables associated with the completion of each. The anticipated time of submission will be determined between IRI and the contractor. The deliverables are the following:

- Final discussion guide
- A 1-2-page pilot report
- Proposed Participant File
- A 2-3-page written summary of the focus group discussion or in-depth interview.
- Full transcripts of all discussion groups or in-depth interviews as described above.
- Video/Audio recordings of the discussions or interviews, with clear audio. Recording should be delivered to IRI electronically (for example via a file transfer service) or delivered to the IRI office.

**Evaluation and Award Process**

1. IRI may contact any Bidder for clarification or additional information, but Bidders are advised that IRI intends to evaluate the offers based on the written proposals, without discussions, and reserves the right to make decisions based solely on the information provided with the initial proposals. IRI may but is not obligated to conduct additional negotiations with the most highly rated Bidders prior to award of a contract, and may at its sole discretion elect to issue contracts to one or more Bidders.

2. Mathematical errors will be corrected in the following manner: If a discrepancy exists between the total price proposed and the total price resulting from multiplying the unit price by the corresponding amounts, then the unit price will prevail and the total price will be corrected. If there is a discrepancy between the numbers written out in words and the amounts in numbers, then the amount expressed in words will prevail. If the Bidder does not accept the correction, the offer will be rejected.

3. IRI may determine that a proposal is unacceptable if the prices proposed are materially unbalanced between line items or sub-line items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly overstated or understated as indicated by the application of cost or price analysis techniques. A proposal may be rejected if IRI determines that the lack of balance poses an unacceptable risk.

4. IRI will conduct a source selection based as follows:

   Best value: IRI intends to make an award to the responsible Bidder based on the following evaluation factors:

   a) Technical evaluation, (including technical capabilities, proposed technical approach, and personnel qualifications) – 50 percent

   • Assessment of recruitment methodology – 10 percent
   • Qualifications of proposed moderator and research team – 10 percent
   • Assessment of fieldwork quality assurance measures – 20 percent
   • Assessment of analysis plan – 10 percent
b) Past performance and experience in performing similar projects – 20 percent.
   - Previously conducted opinion research projects in the area of governance

c) Price – 30 percent

IRI intends to evaluate Bidders’ proposals in accordance with these factors and make an award to the responsible Bidder whose proposal is most advantageous to the program.

5. If a cost realism analysis is performed, cost realism may be considered in evaluating performance or price.

**Notice Listing Contract Clauses Incorporated by Reference**
IRI is required to make the contractor subject to certain flowdown clauses of the prime award. This awarded contract will incorporate one or more clauses by reference, with the same force and effect as if they were given in full text.
