Background

The International Republican Institute (IRI) is a nonprofit, nonpartisan, organization dedicated to advancing freedom and democracy worldwide. Since 1983, IRI has worked to develop democratic institutions and ideals, carrying out a variety of international programs to promote freedom, self-government and the rule of law worldwide. IRI provides technical assistance in the areas of political party strengthening, developing civic institutions and open elections, promoting democratic governance and advancing the rule of law.

For over a decade, the National Endowment for Democracy's investment in WDN has built a platform to connect aspiring and experienced women leaders around the world, coalescing diverse, multi-sector groups of women and empowering them to meaningfully participate and take on leadership roles within the political process. WDN's reach now extends to more than 5,000 members in more than 80 countries and over 22 longstanding partner organizations, including 15 Country Chapters. To-date, WDN has directly reached over 17,000 women through trainings, conferences, and workshops.

WDN will develop a tool that provides a concrete and interactive approach to better position women leaders to engage male allies and further build support for gender equality in political institutions and public life.

Evaluation and Award Process

1. IRI may contact any Bidder for clarification or additional information, but Bidders are advised that IRI intends to evaluate the offers based on the written proposals, without discussions, and reserves the right to make decisions based solely on the information provided with the initial proposals. IRI may but is not obligated to conduct additional negotiations with the most highly rated Bidders prior to award of a contract, and may at its sole discretion elect to issue contracts to one or more Bidders.
2. Mathematical errors will be corrected in the following manner: If a discrepancy exists between the total price proposed and the total price resulting from multiplying the unit price by the corresponding amounts, then the unit price will prevail and the total price will be corrected. If there is a discrepancy between the numbers written out in words and the amounts in numbers, then the amount expressed in words will prevail. If the Bidder does not accept the correction, the offer will be rejected.
3. IRI may determine that a proposal is unacceptable if the prices proposed are materially unbalanced between line items or sub-line items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly overstated or understated as indicated by the application of cost or price analysis techniques. A proposal may be rejected if IRI determines that the lack of balance poses an unacceptable risk.
4. IRI will conduct a source selection based as follows:
 If best value: IRI intends to make an award to the responsible Bidder based on the following evaluation factors:
 - a) Technical evaluation, (including technical capabilities, proposed technical approach, and personnel qualifications) – 45 percent
 - *Proposed training approach covers all listed topics -45 percent.*
 - b) Past performance and experience in performing similar projects – 30 percent
 - *Information about past performance with similar projects – 20 percent*
 - *Experience working on male allies in the DRG space – 10 percent*
 - c) Price – 25 percent

IRI intends to evaluate Bidders' proposals in accordance with these factors and make an award to the responsible Bidder whose proposal is most advantageous to the program.

5. If a cost realism analysis is performed, cost realism may be considered in evaluating performance or price.
