Background

The International Republican Institute (IRI) is a nonprofit, nonpartisan, organization dedicated to advancing freedom and democracy worldwide. Since 1983, IRI has worked to develop democratic institutions and ideals, carrying out a variety of international programs to promote freedom, self-government and the rule of law worldwide. IRI provides technical assistance in the areas of political party strengthening, developing civic institutions and open elections, promoting democratic governance and advancing the rule of law.

IRI in Timor-Leste provides targeted political leadership training to rising potential leaders, prioritizing youth and women, that provides them with the tools and confidence to assert themselves in political and policy discussions and prepares them to actively engage with the public and in future political contests such as the presidential and parliamentary electoral contests scheduled for 2022 and 2023, respectively. The consultant will serve as a media and political trainer and advisor on IRI-Timor-Leste’s digitally forward program. More specifically, the consultant will support IRI with two overarching activities under its current project – the ELAs and the Kò’alia Ba Ha’u! talk show.

The six (6), two-day Emerging Leaders Academies (ELA) cover a myriad of foundational leadership trainings, such political communication and branding, public-speaking, interest-based negotiation and consensus-building, policies related to digital security and climate change, and service delivery at the local level, all while working with members of other political parties, CSOs and the public directly in identifying areas of mutual interest and respectfully negotiating policy solutions. To further support rising leaders in demonstrating advocacy and thought leadership on critical future policy challenges and building broader awareness of these issues, IRI will also provide technical assistance to a select group of ELA participants to produce and distribute informational content on important topics, in particular their chosen policy area. These videos will be distributed via social media, television and national radio.
Ko’alia Ba Ha’u! (Talk to me!) is a series of talk shows designed to promote emerging leaders via direct MP-Government-citizen dialogue. These six talk shows combine panel discussions with more interactive opportunities for citizens to engage with political and community leaders on contemporary issues like information integrity, the future of youth leaders in a democratic Timor-Leste, the importance of women’s voices in political and civic leadership, and the implementation of Timor-Leste’s Anti-Corruption Law. These talk shows will prominently feature the rising leaders who participated in the ELA sessions, including interspersed recordings of them introducing themselves and explaining why the policy issue they chose is important to them and the country. Programming will be pre-recorded, edited and packaged for a repeat airing on radio, television, Facebook and YouTube to maximize audience reach.

**Evaluation and Award Process**

1. IRI may contact any Bidder for clarification or additional information, but Bidders are advised that IRI intends to evaluate the offers based on the written proposals, without discussions, and reserves the right to make decisions based solely on the information provided with the initial proposals. IRI may but is not obligated to conduct additional negotiations with the most highly rated Bidders prior to award of a contract, and may at its sole discretion elect to issue contracts to one or more Bidders.

2. Mathematical errors will be corrected in the following manner: If a discrepancy exists between the total price proposed and the total price resulting from multiplying the unit price by the corresponding amounts, then the unit price will prevail and the total price will be corrected. If there is a discrepancy between the numbers written out in words and the amounts in numbers, then the amount expressed in words will prevail. If the Bidder does not accept the correction, the offer will be rejected.

3. IRI may determine that a proposal is unacceptable if the prices proposed are materially unbalanced between line items or sub-line items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more
contract line items is significantly overstated or understated as indicated by the application of cost or price analysis techniques. A proposal may be rejected if IRI determines that the lack of balance poses an unacceptable risk.

4. IRI will conduct a source selection based as follows:

Best value: IRI intends to make an award to the responsible Bidder based on the following evaluation factors:

a) Technical evaluation (including technical capabilities, proposed technical approach and personnel qualifications) – 35 percent
b) Past performance and experience in performing similar projects in Timor-Leste – 35 percent
c) Price – 30 percent

IRI intends to evaluate Bidders' proposals in accordance with these factors and make an award to the responsible Bidder whose proposal is most advantageous to the program.

5. If a cost realism analysis is performed, cost realism may be considered in evaluating performance or price.
