### Background:

The International Republican Institute (IRI) is a nonprofit, nonpartisan, organization dedicated to advancing freedom and democracy worldwide. IRI provides technical assistance in the areas of political party strengthening, developing civic institutions and open elections, promoting democratic governance and advancing the rule of law.

IRI's Mexico office requires transportation services for program activities in Mexico upon request. On an as-needed basis, transportation will be required to locations within Mexico City as well as outside of Mexico City (Guanajuato, Hidalgo, Jalisco, Michoacán, Morelia Pachuca, Morelos, Nuevo Leon, Puebla, Querétaro, Tlaxcala, and Veracruz). IRI's Mexico program is seeking proposals for a comprehensive transportation services package.

### Period of Performance:

Date of signature – November 30, 2022, with the option to extend for a total duration of up to 5 years up in four one-year increments.

- e) Documents proving that vehicles are under full coverage insurance.
- f) Documents proving that the Contractor has provided similar services to private or public sector, or NGOs

1. The Contractor and drivers should agree to IRI's code of ethics. Should the primary drivers be unavailable for service for any reason, the Contractor is to provide a substitute driver and a car until the primary driver is able to resume service. IRI must approve any change in the fulltime driver, but not substitute drivers. All drivers (full-time and substitutes) must have a minimum of three years of relevant experience and a valid license.
  - Per Mexican law, vehicle(s) should have been inspected within the past 6 months
  - Individuals apart from the contracted driver(s) will be prohibited from driving contracted vehicle(s).
2. Driver(s) must have a "clean" driving record. IRI defines a "clean driving record" as no more than three (3) police tickets issued in the past three (3) years.
3. The Contractor must have a valid driver's license and be registered as a commercial vehicle services provider.
4. Drivers will provide transportation services as requested by IRI's resident country director, to inclusive of all areas inside Mexico City, and as far as Guanajuato, Hidalgo, Jalisco, Michoacán, Morelia Pachuca, Morelos, Nuevo Leon, Puebla, Querétaro, Tlaxcala, and Veracruz.
  - Rates will be per trip, based by the driver(s) log and reimbursed based on a rate sheet provided by the Contractor.
  - The rate must include fuel costs.
  - Drivers will keep a log detailing all trips, including starting and ending point and detailing whether the trips were personal or business related. Each trip must be signed by the passenger in the vehicle and must include project code to be charged.
5. Provision of at least one vehicle, not older than 2015, to be used only by the drivers assigned to IRI's driver pool or their substitutes approved by IRI's resident country director. The vehicle must be a full-size sedan and can seat at least four (4) passengers.
6. In addition to the driver pool service, the Contractor should be able to provide to IRI per request:
  - Additional van services that meet technical standards described above and can transport larger groups of individuals (7+ passenger capacity)
7. All vehicles should be in good condition: regularly cleaned and maintained, no major damage to the vehicle.
8. Should any of the vehicles be unavailable for any reason, the Contractor is to provide a substitute vehicle of comparable quality until the primary vehicle is able to resume service.
9. The Contractor certifies that vehicles are in sound and safe condition and free of any known faults or defects which would affect their safe operation under normal use.

IRI may but is not obligated to conduct additional negotiations with the most highly rated Bidders prior to award of a contract, and may at its sole discretion elect to issue contracts to one or more Bidders.
2. Mathematical errors will be corrected in the following manner: If a discrepancy exists between the total price proposed and the total price resulting from multiplying the unit price by the corresponding amounts, then the unit price will prevail and the total price will be corrected. If there were a discrepancy between the numbers written out in words and the amounts in numbers, then the amount expressed in words will prevail. If the Bidder does not accept the correction, the offer will be rejected.
3. IRI may determine that a bid is unacceptable if the prices proposed are materially unbalanced between line items or sub-line items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly overstated or understated as indicated by the application of cost or price analysis techniques. A bid may be rejected if IRI determines that the lack of balance poses an unacceptable risk.

- d) Price – 35 percent

IRI intends to evaluate bids in accordance with these factors and make an award to the responsible bidder whose proposal is most advantageous to the program.
