Background

The International Republican Institute (IRI) is a nonprofit, nonpartisan, organization dedicated to advancing freedom and democracy worldwide. Since 1983, IRI has worked to develop democratic institutions and ideals, carrying out a variety of international programs to promote freedom, self-government and the rule of law worldwide. IRI provides technical assistance in the areas of political party strengthening, developing civic institutions and open elections, promoting democratic governance and advancing the rule of law.

To support the National Assembly (NA) of Panama with its capacity to improve citizen participation and transparency, the Institute will be hosting a series of trainings for the NA Alternate Members and NA members. These trainings should draw from Open Parliament, Open Government, and Sustainable Development 2030 Goals with the expectation that they will increase participants understanding of transparency and citizen participation and equip them with knowledge necessary to create roadmaps. Building on this, the NA participants will be creating roadmaps, which can include strategies for improving messaging and communications, enhancing or creating new citizen participation mechanisms, increasing access to information through digital platforms, among others. These roadmaps should incorporate best practices to specific NA processes and products with clear and feasible steps that can be applied to NA members' professional endeavors.

Period of Performance

- Provide signed certifications to a minimum of 15 participants for the training program.
- Provide a final report including: 1) list of attendees, 2) participant disaggregated information, 3) roadmap design in the training program, 4) findings and recommendations from the training program.

Evaluation and Award Process

1. IRI may contact any Bidder for clarification or additional information, but Bidders are advised that IRI intends to evaluate the offers based on the written proposals, without discussions, and reserves the right to make decisions based solely on the information provided with the initial proposals. IRI may but is not obligated to conduct additional negotiations with the most highly rated Bidders prior to award of a contract, and may at its sole discretion elect to issue contracts to one or more Bidders.
2. Mathematical errors will be corrected in the following manner: If a discrepancy exists between the total price proposed and the total price resulting from multiplying the unit price by the corresponding amounts, then the unit price will prevail and the total price will be corrected. If there is a discrepancy between the numbers written out in words and the amounts in numbers, then the amount expressed in words will prevail. If the Bidder does not accept the correction, the offer will be rejected.
3. IRI may determine that a proposal is unacceptable if the prices proposed are materially unbalanced between line items or sub-line items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more

contract line items is significantly overstated or understated as indicated by the application of cost or price analysis techniques. A proposal may be rejected if IRI determines that the lack of balance poses an unacceptable risk.

4. IRI will conduct a source selection based as follows:

IRI intends to make an award to the responsible Bidder based on the following evaluation factors:

- a) Technical evaluation, (including technical capabilities, proposed technical approach, and personnel qualifications) – 40 percent
 - *Experience with developing, designing, and evaluating curriculum-* 20 percent
 - *Be willing to issue an official certificate at the end of training-* 10 percent
 - *Registered to provide academic services in Panama-* 10 percent
- b) Past performance and experience in performing similar projects – 40 percent
 - *One year or more of experience with training involving government officials' and non-governmental institutions-* 20 percent
 - *Five or more years of experience with academic program-* 20 percent
- c) Price – 20 percent

IRI intends to evaluate Bidders' proposals in accordance with these factors and make an award to the responsible Bidder whose proposal is most advantageous to the program.

5. If a cost realism analysis is performed, cost realism may be considered in evaluating performance or price.
