Background
The International Republican Institute (IRI) is a nonprofit, nonpartisan, organization dedicated to advancing freedom and democracy worldwide. Since 1983, IRI has worked to develop democratic institutions and ideals, carrying out a variety of international programs to promote freedom, self-government and the rule of law worldwide. IRI provides technical assistance in the areas of political party strengthening, developing civic institutions and open elections, promoting democratic governance and advancing the rule of law.

The Strong and Inclusive Maldivian Democracy program seeks to strengthen the capacity and resilience of Maldivian democratic institutions by creating a stronger nexus between government and civil society through the promotion of government transparency and civic engagement in policy reform. The program has been designed to engage and inform public officials and civil society leaders at both national and local levels of government, including a specific focus on support for the decentralization process and the strengthening of institutions relevant to the justice sector. For its virtual activities, CEPPS/IRI will partner with a local company to facilitate workshops and conferences through a virtual platform, ensuring IRI staff can fully participate and lead the conferences and/or workshops. The addition of a local company will ensure all technical aspects of programming (virtual breakout rooms, virtual banners, real time troubleshooting etc.) are handled quickly and efficiently, enabling virtual activities to be successful and ensuring IRI staff can remain fully focused on the content being delivered to stakeholders.

Evaluation and Award Process

1. IRI may contact any Bidder for clarification or additional information, but Bidders are advised that IRI intends to evaluate the offers based on the written proposals, without discussions, and reserves the right to make decisions based solely on the information provided with the initial proposals. IRI may but is not obligated to conduct additional negotiations with the most highly rated Bidders prior to award of a contract, and may at its sole discretion elect to issue contracts to one or more Bidders.

2. Mathematical errors will be corrected in the following manner: If a discrepancy exists between the total price proposed and the total price resulting from multiplying the unit price by the corresponding amounts, then the unit price will prevail and the total price will be corrected. If there is a discrepancy between the numbers written out in words and the amounts in numbers, then the amount expressed in words will prevail. If the Bidder does not accept the correction, the offer will be rejected.

3. IRI may determine that a proposal is unacceptable if the prices proposed are materially unbalanced between line items or sub-line items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly overstated or understated as indicated by the application of cost or price analysis techniques. A proposal may be rejected if IRI determines that the lack of balance poses an unacceptable risk.

4. IRI will conduct a source selection based as follows: Best value

IRI intends to make an award to the responsible Bidder based on the following evaluation factors:

a. Technical evaluation, (including technical capabilities, proposed technical approach, and personnel qualifications) – 40 percent
   i. Ability to provide support for last minute changes - 20 percent
   ii. Have fluency in Divehi and English - 20 percent

b. Past performance and experience in performing similar projects – 40 percent
   i. Experience in facilitating workshops and/or conferences in the Maldives via Zoom - 20 percent
   ii. Experience working with government officials in the Maldives - 10 percent
   iii. Past performance in facilitating workshops and/or conferences through Zoom - 10 percent

c. Price – 20 percent

IRI intends to evaluate Bidders’ proposals in accordance with these factors and make an award to the responsible Bidder whose proposal is most advantageous to the program.
5. If a cost realism analysis is performed, cost realism may be considered in evaluating performance or price.
