Background:

The International Republican Institute (IRI) is a nonprofit, nonpartisan, organization dedicated to advancing freedom and democracy worldwide. Since 1983, IRI has worked to develop democratic institutions and ideals, carrying out a variety of international programs to promote freedom, self-government and the rule of law worldwide. IRI provides technical assistance in the areas of political party strengthening, developing civic institutions and open elections, promoting democratic governance and advancing the rule of law.

Under the proposed program, IRI will support the Bosnian Ministry of Security through expert assessments of the Ministry's communications capacity and the development of a communication strategy with an assistive action plan. The Strategy will be developed around the Ministry's Strategy for Preventing and Combating Terrorism 2015-2020 and specifically address P/CVE activities. The Strategy will aim to propose and define clear communication mechanisms between institutions working on P/CVE-related issues, under the umbrella of the Ministry.

The communication strategy will focus both on internal and external communication, define its goals and objectives, map key target audiences, define how messages will be directed towards these target groups (i.e. civil society, youth, local communities, journalists, etc.), and what tools and channels of communication will be used in this process. Internally, the strategy will help define procedures and protocols in the Ministry. The action plan will include a list of outreach activities that will help the Ministry in the successful implementation of its CVE strategy.

If the Bidder does not accept the correction, the offer will be rejected.
