Detailed Methodology

- The survey was conducted on behalf of the International Republican Institute’s Center for Insights in Survey Research by NAMA Strategic Intelligence Solutions.
- The sample consists of n=1,504 computer-assisted personal interviewing (CAPI) administered face-to-face interviews, with Jordanians aged 18 and above, and was conducted nationwide between May 2 and May 23, 2021. The sample excludes Jordanians living in student housing, prisons, nursing homes and factory accommodations.
- The 2015 National Census was used to design and draw the sample. The sample was designed to cover the 12 governorates, using stratified clusters proportional to size sampling method with three levels:
  - Governorates divided into rural and urban areas
  - Administrative divisions within each urban and rural area
  - Clusters within each administrative division.
- The margin of error is ±2.5-points at the 95 percent confidence level.
- The response rate was 73 percent.
- The data was weighted to ensure its national representativeness across age groups, governorates, urbanicity and educational attainment.
- Figures in charts and tables may not add up to 100 percent due to rounding.
- This survey was made possible by the generous support of the American people through the United States Agency for International Development.

Why are there not more young people aged 40 and younger politically engaged in our country? For each potential reason, please tell me if it plays a major role or not.

(Figure displays *Major role* responses)

- **Youth are preoccupied with finding jobs or advancing their career**: All Respondents = 86%, Respondents aged 40 or younger = 85%
- **Youth lack the resources to mount a campaign**: All Respondents = 78%, Respondents aged 40 or younger = 77%
- **Even when youth run for office, they do not get elected**: All Respondents = 73%, Respondents aged 40 or younger = 71%
- **Youth lack the confidence to run**: All Respondents = 70%, Respondents aged 40 or younger = 67%
- **Youth lack political experience**: All Respondents = 70%, Respondents aged 40 or younger = 68%
- **Youth are not interested in engaging in politics**: All Respondents = 70%, Respondents aged 40 or younger = 68%
- **Youth lack familial support**: All Respondents = 67%, Respondents aged 40 or younger = 66%
- **Youth are afraid of stigma or threats or a bad reputation if they run**: All Respondents = 58%, Respondents aged 40 or younger = 58%
- **Youth are not respected by society**: All Respondents = 56%, Respondents aged 40 or younger = 52%
The current election law stipulates that any candidate running for parliament must be 30 years of age or above. If we are to lower the age limit of running for parliament, the ideal age would be...
Which, if any, of the following have you engaged in over the past two years for a political or social cause?
(Multiple responses accepted)

- Voting
- Donating money
- Donating time
- Raising awareness about an issue
- Write in the media (including social media)
- Volunteering for the electoral process (including polling stations, ushering, etc.)
- Contacting an official
- Participated in community consultation sessions
- Met with a CBO, or NGO representatives
- Joining a demonstration
- Signing a petition
- Advocating a certain issue to parliament
- Joined a strike
- Working in political campaigns
- Volunteering for a political party
