Background

Since 1983, IRI has worked to develop democratic institutions and ideals, carrying out a variety of international programs to promote freedom, self-government and the rule of law worldwide. IRI provides technical assistance in the areas of political party strengthening, developing civic institutions and open elections, promoting democratic governance and advancing the rule of law.

The International Republican Institute's (IRI) Center for Global Impact cultivates innovative, evidence-based programming and provides resources, tools, and expertise to IRI staff to advance democracy worldwide. The Center also leads IRI's institutional efforts on monitoring, evaluation, and learning and applied research, ensuring our programs are based on the latest evidence and designed to achieve impact. As part of that research, the Center regularly publishes reports that require copy-editing services across many of its programs and grants. The firm or individual will provide copyediting services for multiple research publications and programmatic reports written in English.

Technical Proposals

All proposals submitted to IRI must include:

1. Information addressing Bidder's experience in providing each of the services identified in the above Statement of Work and Bidder's proposed specific approach for providing those services to IRI under this contract, including sufficient information to determine a clear definition of services as it relates to other providers that may be involved.
2. The name, address, and telephone and facsimile numbers of the Bidder (and electronic address if available). If the Bidder is a firm, name(s) should be provided for individuals authorized to conduct business on behalf of the firm.
3. Bidders may provide a list of up to three references for work performed of a similar nature during the last three years, along with contact details. IRI may contact the references to evaluate past performance.
4. If the Bidder is a U.S. organization/resident, or a foreign organization/resident which has income effectively connected with the conduct of activities in the U.S. or has an office or a place of business or a fiscal paying agent in the U.S., the information submitted must contain Bidder's Taxpayer Identification Number.
5. Proposals will not exceed 5 pages (not including cover page).
6. Proposals submitted by individuals must contain the attached Expert Service Rate Form and a CV/resume.
7. Proposals should include the following components:
 - Overview
 - Objectives
 - Methodology and timeline
 - The price and pricing structure the applicant will charge to complete the work.

Price Proposals

Bidders must propose a firm-fixed Unit Price for each of the deliverables identified below and in the format of the table below. The Bidder's pricing must be valid for at least 60 (sixty) calendar days after the due date for proposal submission. The proposed Unit Price should be fixed and inclusive of all costs to perform, including inspection services, transportation, taxes, import duties (if any), and other levies. To the extent that a Bidder proposed to include any pricing not reflected in the table below, such pricing must be fully described in the proposal. Proposals must be submitted in **USD**, payments under any resulting contract will be made in this currency.

Evaluation and Award Process

1. IRI may contact any Bidder for clarification or additional information, but Bidders are advised that IRI intends to evaluate the offers based on the written proposals, without discussions, and reserves the right to make decisions based solely on the information provided with the initial proposals. IRI may but is not obligated to conduct additional

negotiations with the most highly rated Bidders prior to award of a contract, and may at its sole discretion elect to issue contracts to one or more Bidders.

2. Mathematical errors will be corrected in the following manner: If a discrepancy exists between the total price proposed and the total price resulting from multiplying the unit price by the corresponding amounts, then the unit price will prevail and the total price will be corrected. If there is a discrepancy between the numbers written out in words and the amounts in numbers, then the amount expressed in words will prevail. If the Bidder does not accept the correction, the offer will be rejected.
3. IRI may determine that a proposal is unacceptable if the prices proposed are materially unbalanced between line items or sub-line items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly overstated or understated as indicated by the application of cost or price analysis techniques. A proposal may be rejected if IRI determines that the lack of balance poses an unacceptable risk.
4. IRI will conduct a source selection based as follows:
IRI intends to make an award to the responsible Bidder based on the following evaluation factors:
 - a) Technical evaluation, (including technical capabilities, proposed technical approach, and personnel qualifications) – 40 percent
 - b) Compliance with content requested, (The extent to which the individual or firm’s proposed solutions to fulfill the scope of work as set and provision for flexibility under short deadlines)-15 percent
 - b) Past experience in performing similar projects – 15 percent
 - e) Price – 30 percent

The Commission will determine which organization or individual responding to this request will be awarded the contract based on a comprehensive “best value” analysis of the proposals received, to include the cost to provide these services, technical skill and experience, ability to maintain flexible availability and perform services under short deadline, and past performance or references

IRI intends to evaluate Bidders’ proposals in accordance with these factors and make an award to the responsible Bidder whose proposal is most advantageous to the program.

5. If a cost realism analysis is performed, cost realism may be considered in evaluating performance or price.
