These Focus Group Discussions will provide IRI and project partners with critical data on citizen views on a variety of issues.

Period of Performance

Date of Signature through February 15, 2024 with the option to extend for a total duration of up to 5 years up in four one-year increments.

Statement of Work

Qualitative Research In Turkey

Focus Groups on Policy and Socio-Economic Topics

Objectives Of The Research

IRI will ask the bidder to conduct a round focus groups that addresses one or more of research objectives below.

IRI needs to:

1. Understand Turkish opinions on policy proposals and legislative drafts
2. Understand Turkish views on pre-election socio-economic issues and post-election expectations.

3. Understand Turkish views on social or political issues that are relevant at the time of fieldwork

4. Understand Turkish views on various political parties and candidates

Methodology

The objectives above are best addressed by a round of focus groups. IRI would like the option to extend the contract to conduct more rounds of focus groups after the conclusion of the first round. IRI will request no more than 3 rounds per year for up to five years.

For each round, either 20 or 25 or 30 groups, each lasting approximately 90-120 minutes should take place.

For each round, the groups will take place in different cities across the 12 statistical areas within Turkey. In Istanbul and in Ankara, there will generally be twice the number of groups as in other cities. For example, if there are two groups in a city in Western Marmara, there will be four groups in Istanbul. The groups in each round will cover at least 8 of the 12 areas listed below:

- Istanbul
- Western Marmara
- Aegean
- Eastern Marmara
- Western Anatolia
- Mediterranean
- Central Anatolia
- Western Black Sea
- Eastern Black Sea
- Northeastern Anatolia
- Central-Eastern Anatolia
- Southeastern Anatolia

Each group will be composed as follows:

- Gender will be roughly split 50/50
- Education levels will be mixed
- Ethnic background roughly reflective of the city's population
- Political party affiliation will be roughly proportionate to party affiliation as determined by most recent polling data or election data
- Age groups will generally be separated into 18-40 and 41+

Additional requirements:

- Participants in the same focus group session may not know one another.
- No participants may have participated in a focus group study in the past 12 months.

General Responsibilities Of The Offeror

Offeror will be responsible for managing all logistical aspects of the project above and should engage local support staff as necessary to complete the following:

- **Screener.** For each round, IRI will provide a draft screening questionnaire based on the specifications above. The Offeror will review offer edits within three working days of receipt. Following IRI approval, the Offeror will translate the screener into Turkish. IRI reserves the right to review the translation prior to recruitment launch.
- **Recruiting participants.** For each round, Offeror will recruit all participants according to the screening criteria listed above. At least one week prior to the start of the first focus group session, the Offeror will provide a brief description of the composition of the groups in terms of age, gender, occupation, etc. Offeror should recruit 8-10 participants for each in person group as well as 2-3 alternates in case any of the original participants are unable to participate. All participants will be required to give written informed consent to participate in this study. IRI will provide draft informed consent language which may be adjusted by the bidder in order to conform to any specific legal requirements in the research country.
- **Discussion guide.** IRI will provide one draft discussion for each round of focus groups. Offeror will be welcome to offer suggestions for improvement and is expected to format and translate the discussion guide into Turkish. IRI reserves the right to review the translation(s.) Once IRI has reviewed the template, some modification of the discussion guide may be required.
- **Focus group moderator(s).** Offeror will provide one or more trained and experienced moderator(s) who is/are fully fluent in the language of discussion. They should familiarize themselves with the topic of discussion prior to fieldwork.
 - **Observation.** The Offeror will provide an opportunity for IRI staff to observe the focus group discussions. IRI may request simultaneous translations in English while observing. In rounds that require simultaneous translation, roughly half of groups will require it
- **Recording of focus group discussions.** Audio and/or video record all aspects of research necessary for full and accurate data collection, transcript generation and inclusion of illustrative samples in the final analytical report. Offeror will film focus groups and film should be high quality with clear sound. If participants do not consent to videotaping, audio recordings are acceptable.
- **Written summary of focus group discussions.** For each round, Offeror will provide a 2-3 page written summary of the focus group discussions (one single summary for all groups) in idiomatic English within one week after the final focus group session. There will be one written summary of the focus group discussions.

- **Transcripts.** For each round, the Offeror will provide IRI with full verbatim transcripts in English of each group that will identify each participant speaker by number or first name to link each comment to the participant's gender, exact age, education level, city and occupation.
- **Written analytical report.** For each round, offeror will analyze all discussions, and write and edit a final analytic report for review, editing and acceptance by IRI. IRI will provide a report template. The report is expected to synthesize findings across all participants and all discussion sessions per round, while noting any major differences of opinions between participants and sessions. The report must present actual analysis (i.e. not mere description) and illustrative quotes from participants. The report must be in idiomatic English, and include a one or two slide executive summary, addressing the research needs outlined above. The length is approximately 10-20 slides.

DELIVERABLES Per Round Of Focus Groups

- Finalized discussion guide (incl translation where applicable)
- Proposed Participant Profile
- Written summary as specified above.
- Video/Audio recordings of the discussions, with clear audio. Recording should be delivered to IRI electronically (for example via a file transfer service) or delivered to the local IRI office.

- The exact timing of the first round of focus groups needs to be determined in close consultation with IRI

Evaluation and Award Process

1. IRI may contact any Bidder for clarification or additional information, but Bidders are advised that IRI intends to evaluate the offers based on the written proposals, without discussions, and reserves the right to make decisions based solely on the information provided with the initial proposals. IRI may but is not obligated to conduct additional negotiations with the most highly rated Bidders prior to award of a contract, and may at its sole discretion elect to issue contracts to one or more Bidders.
2. Mathematical errors will be corrected in the following manner: If a discrepancy exists between the total price proposed and the total price resulting from multiplying the unit price by the corresponding amounts, then the unit price will prevail and the total price will be corrected. If there is a discrepancy between the numbers written out in

words and the amounts in numbers, then the amount expressed in words will prevail. If the Bidder does not accept the correction, the offer will be rejected.

3. IRI may determine that a proposal is unacceptable if the prices proposed are materially unbalanced between line items or sub-line items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly overstated or understated as indicated by the application of cost or price analysis techniques. A proposal may be rejected if IRI determines that the lack of balance poses an unacceptable risk.
4. IRI will conduct a source selection based as follows:

IRI intends to make an award to the responsible Bidder based on the following evaluation factors:

- a) Technical evaluation, (including technical capabilities, proposed technical approach, and personnel qualifications) – 40 percent.
 - *Recruitment plan-10 percent*
 - *Capacity of perform scope of work- 20 percent.*
 - *Analysis plan-10 percent*
- b) Experience in performing similar projects – 30 percent
 - *Experience conducting face to face FGDs in Turkey- 30 percent*
- c) Price – 30 percent

IRI intends to evaluate Bidders' proposals in accordance with these factors and make an award to the responsible Bidder whose proposal is most advantageous to the program.

5. If a cost realism analysis is performed, cost realism may be considered in evaluating performance or price.
