Ahead of the upcoming municipal elections in Fiji, IRI seeks to promote the integrity of elections as a sustainable vehicle for peaceful and democratic transitions and promote meaningful participation of all citizens in their political systems, including women, youth and other traditionally marginalized groups. To help achieve the above, IRI will work with a researcher or research firm operating in Fiji to conduct focus group discussions (FGDs) assessing the motivations and expectations of voters surrounding the upcoming municipal elections.

Statement of Work:

QUALITATIVE RESEARCH IN FIJI
Focus Groups on Municipal Elections

OBJECTIVES OF THE RESEARCH
IRI needs to:
1. Understand voters’ expectations, including expected conduct of the elections, understanding of the election process, and motivations for participating, surrounding the first municipal elections to be held in the country since 2005. IRI seeks to target districts that have experienced lower voter turnout in previous elections.

METHODOLOGY
The questions above are best addressed by a focus group study. Each group will last approximately 90-120 minutes. Up to 12 focus groups should be held across 4-6 different locations, with 2 groups per location depending on budget constraints. The locations will be in the Central, Eastern, Northern and Western regions of Fiji. The specific locations within each region will be determined in close consultation with the bidder. Please propose any priority locations to hold these groups, especially in any low voter turnout areas.
The two groups held in each location will be of the following demographics:
   1) Women aged 18+
   2) General population, mixed gender, aged 18+

Additional requirements:
• Participants in the same focus group session may not know one another.
• No participants may have participated in a focus group study in the past 12 months.

GENERAL RESPONSIBILITIES OF THE OFFEROR
Offeror will be responsible for managing all logistical aspects of the project above. From project design to execution, the bidder must comply with any laws governing human subjects research that apply to focus group discussions in Fiji, including data privacy laws. The bidder should engage local support staff as necessary to complete the following:
• **Screener.** IRI will provide a draft screening questionnaire based on the specifications above. The Offeror will review and offer edits within three working days of receipt. Following IRI approval, if the bidder finds it necessary, they will translate the screener into one or more non-English languages. These additional languages will be indicated in the proposal. IRI reserves the right to review the translation prior to recruitment launch.
• **Recruiting participants.** Offeror will recruit all participants according to the screening criteria listed above. At least one week prior to the start of the first focus group session, the Offeror will provide a brief description of the composition of the groups in terms of age, gender, occupation, etc. Offeror should recruit 8-10 participants for each in person group as well as 2-3 alternates in case any of the original participants are unable to participate. All participants will be required to give written informed consent to participate in this study. IRI will provide draft informed consent language which may be adjusted by the bidder in order to conform to any specific legal requirements in the research country.
• **Discussion guide.** IRI will provide the draft discussion guide. Offeror will be welcome to offer suggestions for improvement and is expected to format the discussion guide. If the bidder finds it necessary, they will translate the discussion guide into one or more non-English languages. These additional languages will be indicated in the proposal. IRI reserves
the right to review the translation(s.) Once IRI has reviewed the template, some modification of the discussion guide may be required.

- **Focus group moderator(s).** Offeror will provide one or more trained and experienced moderator(s) who is/are fully fluent in the language or discussion. They should familiarize themselves with the topic of discussion prior to fieldwork. If bidder determines that discussion guide translation into a language other than English is necessary, bidder will also provide moderator(s) who can conduct focus groups in this language. In this instance, the bidder will determine with IRI the language that will be used for up to twenty focus group discussions.

- **Observation.** The Offeror will provide an opportunity for IRI staff to observe the focus group discussions.

- **Recording of** focus group discussions. Audio and/or video record all aspects of research necessary for full and accurate data collection, transcript generation and inclusion of illustrative samples in the final analytical report. Offeror will film focus groups and film should be high quality with clear sound. If participants do not consent to videotaping, audio recordings are acceptable.

- **Written summary of** focus group discussions. Offeror will provide a 2-3 page written summary of the focus group discussions (one single summary for all) in idiomatic English within one week after the final focus group session.

- **Transcripts.** The Offeror will provide IRI with full verbatim transcripts in English of each group that will identify each participant speaker by number or first name to link each comment to the participant’s gender, exact age, education level, city and occupation.

- **Written analytical report.** Offeror will analyze all discussions, and write and edit final analytic report for review, editing and acceptance by IRI. IRI will provide a report template. The report is expected to synthesize findings across all participants and all discussion sessions, while noting any major differences of opinions between participants and sessions. The report must present actual analysis (i.e., not mere description) and illustrative quotes from participants. The report must be in idiomatic English and include a one or two page/slide executive summary, addressing the research needs outlined above. The length is approximately 15 pages. Offeror will also provide a slide deck that summarizes the findings of the analytical report. The slide deck should be between 10 and 20 slides.

**DELIBERABLES**

- Finalized discussion guide (incl translation where applicable)
- Finalized recruitment screener (incl translation were applicable)
- Proposed Participant Profile
- Written summary as specified above.
- Video/Audio recordings of the discussions, with clear audio. Recording should be delivered to IRI electronically (for example via a file transfer service) or delivered to the local IRI office.

- Analytic report in MS Word AND 10-20 slides in MS PowerPoint

**TIMING**

The focus group discussions should be held as soon as possible; the exact timing needs to be determined in close consultation with IRI.

**Evaluation and Award Process**

1. IRI may contact any Bidder for clarification or additional information, but Bidders are advised that IRI intends to evaluate the offers based on the written proposals, without discussions, and reserves the right to make decisions based solely on the information provided with the initial proposals. IRI may but is not obligated to conduct additional negotiations with the most highly rated Bidders prior to award of a contract, and may at its sole discretion elect to issue contracts to one or more Bidders.

2. Mathematical errors will be corrected in the following manner: If a discrepancy exists between the total price proposed and the total price resulting from multiplying the unit price by the corresponding amounts, then the unit price will prevail and the total price will be corrected. If there is a discrepancy between the numbers written out in words and the amounts in numbers, then the amount expressed in words will prevail. If the Bidder does not accept the correction, the offer will be rejected.

3. IRI may determine that a proposal is unacceptable if the prices proposed are materially unbalanced between line items or sub-line items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly overstated or understated as indicated by the
application of cost or price analysis techniques. A proposal may be rejected if IRI determines that the lack of balance poses an unacceptable risk.

4. IRI will conduct a source selection based as follows:
   a) Technical evaluation, (including technical capabilities, proposed technical approach, and personnel qualifications) – 40 percent
      • Recruitment plan- 10 percent
      • Capacity to perform scope of work- 20 percent
      • Analysis plan-10 percent
   b) experience in performing similar projects – 30 percent
      • Experience conducting face to face FGDs in Fiji-30 percent
   e) Price – 30 percent

IRI intends to evaluate Bidders’ proposals in accordance with these factors and make an award to the responsible Bidder whose proposal is most advantageous to the program.

5. If a cost realism analysis is performed, cost realism may be considered in evaluating performance or price.
